Track-Carrier Marquis

The TRACK-CARRIER 7000 is a short wood forwarder with great manoeuvrability and flexibility. With a capacity of 8 cubic meter, the TRACK-CARRIER 7000 is a major asset commercial bright interval and can accomodate a multi-fonctionnal harvester.

Access to logs is facilitated because of it's 22 foot long boom and stick. The TRACK-CARRIER 7000 is one of a kind and has the advantage of transforming into a bulldozer.

- *8 tons of short woods capacity*
- *Intall on most small tractor*
- *Very little ground impact*
- *Economic*
- *Flexible*
- *Improved efficacy*
